Let me first welcome you all to the New Year 2017 with a hope that every new opportunity in this year serves as a valuable treasure for a better tomorrow. May each day of this year bring happiness, excitement and sweet surprises on your doorstep!

On behalf of GSeL I thank all the contributors to the second volume of Assumption University-eJournal of Interdisciplinary Research (AU-eJIR). eJIR aims to promote original research in few areas-Technology, Multidisciplinary Science & Technology, Economics, Administration and Management. As an open access journal its core objective is to cultivate fruitful dialogues among academics, researchers and graduate students.

On this auspicious occasion of the publication of 3<sup>rd</sup> edition (Vol 2: Issue1) of AU-eJIR I must congratulate the contributors from various countries. It is quite encouraging to see that we have received papers from faculty, researchers and graduate students from various countries ranging from India, Nigeria to USA. This year we also have a few contributions from our own graduate students studying at Assumption University.

I wish all the success and glory to GSeL and thank the staff and the Managing Director for putting together the new 2017 edition. I am sure that in this second year of publication of eJIR we will have many more interesting papers covering variety of themes.
